Assignment Submit Details

Spring 2012

- **All** of your submissions must include a minimum of **four** separate files:
 - **File 1:** A short **write-up** that **first** specifies what you think your **degree of success** with a project is (**from 0% to 100%**), followed by a brief discussion of your approach to the project along with a **detailed description** of any problems that you were **not** able to resolve for this project. **Failure to specifically provide this information will result in a 0 grade** on your assignment. If you do **not disclose** problems in your write-up and problems are detected when your program is tested, you will receive a grade of 0. **Make sure that you include your email address in your write-up so that the corrector can email you your grade.**
 - **File(s) 2(a, b, c, ...):** Your **complete source code**, in one or more **.c** and/or **.h** files
 - **File 3:** A **make file** to build your assignment. This file must be named **Makefile**.
 - **File 4:** A file that includes your **resulting output** run(s) from your project. This is a simple text file that shows your output, but make sure that you annotate it so that it is self descriptive and that all detailed output is well identified.

- The submit syntax issued from a shell prompt for your first assignment is:

```
submit zli 516hw1 assign1_dir
```

where **assign1_dir** is the name of the directory with exactly your required submission files in it, and the assignment name will vary from **516hw1** to **516hw2** to **516hw3**, etc. **Zheng Li** (zhengli10@gmail.com) is the TA and assignment corrector for this course, and he will email you your grade and any details about points you may have lost on each assignment. **It is very important to make sure that you include your email address in the write-up portion of your submission, so Zheng can return your grade to you.**

- Assignments are **graded** from **0 – 10 in half point (0.5) increments**, and, as outlined in the class syllabus, will **lose 1 point for each class day they are late up to a total of 5 late points**. Assignments may be submitted until midnight of the last class day of the semester (May 3).
