

91.450 Robotics I
Fall 2001

Textbooks

There are two textbooks for this course:

Introduction to AI Robotics
Robin R. Murphy
MIT Press, 2000

Robotic Explorations: A Hands-on Introduction to Engineering
Fred G. Martin
Prentice Hall, 2000

Both are available at the bookstore.

You may also wish to check on-line pricing. At bn.com, I was able to purchase both books for about \$80 with free shipping. I used the coupon code `TEXTBOOK` to get \$20 off my textbook purchase at bn.com. Amazon.com was more expensive than bn.com when I checked, but you might want to check there too.
