

91.451 Robotics II
Spring 2003
Prof. Yanco

Lab 6

Out: Thursday, 3 April 2003

Due: Wednesday, 9 April 2003 by 2:00pm

In this lab, you'll start to explore neural networks for controlling the robot.

Read the whole module first. Then do Exercises 1 and 2. After completing Exercise 2, skip to "Using a neural network as a robot brain" and complete Exercise 3. Finally, test out the code in the "Adding visualization section."
