Assignment 3: Human-Subjects Studies and the IRB

Out: Thursday, 18 October 2007

Due: Thursday, 1 November 2007

On Thursday, 1 November, Elaine Major, UML's Director of Institutional Compliance, will be giving a guest lecture in class on conducting studies with human subjects. In preparation for her visit, complete the CITI training course, which can be found at <http://www.citiprogram.org/default.asp>.

To show completion of the assignment, print a copy of the completion certificate to turn in on the due date.

If you have a valid CITI certificate from the past year, you may submit that instead of taking the course again.
