Final Presentation:

As previously announced, projects involving a graduate student are scheduled for presentation in class on Thursday, 7 December, and projects with only undergraduate students are scheduled for presentation in class on Tuesday, 12 December. As an additional option, you can choose to present your project on Tuesday, 19 December during the final exam slot that was set for the class (the slot is 8-11am, but we will start around 9 – the exact start time will depend upon the number of people who sign up for that day.

Before the start of class on Tuesday, 5 December, each project group should fill out the Google form at this link (one submission per group):
https://goo.gl/forms/SKqK5ZQYD6aNpRXW2

Your presentation should give a brief description of your original goal for your project, other work/research related to your project, a brief demo or movie of your system running, and lessons learned during project implementation.

Project Report:

More details in next class.

Grading:

Your grade for the project will be computed as follows:
20% for project proposal
20% for project presentation
30% for project report
30% for the project development
