Problem Set 6
Generic Operators

Out: Tuesday, 19 October 2010
Due: Tuesday, 26 October 2010

Reading: Sections 2.4 and 2.5.

Overview

In this assignment, you will explore the generic operators system and will introduce the ability to coerce data types.

For this assignment, you will need to use the code in the book in Section 2.5.1. You will find this code on the course web site. You do not need to submit this code with your assignment; just submit the code and test runs for the problems below. (I recommend that you keep two separate files: one for the book’s code and another for your answers to the problems.)

Use the R5RS language in Dr. Scheme for this problem set.

Exercises

Problem 1: Exercise 2.73, a only, on p. 185.
Problem 4: Exercise 2.80 on p. 193.
Problem 5: Exercise 2.81 on p. 200.
Problem 6: Exercise 2.82 on p. 201.
Problem 7: Exercise 2.83 on p. 201.
Problem 8: Exercise 2.84 on p. 201.

Honors Section Exercises

Problem 10: Exercise 2.85 on p. 201.
